Council Plans To Invite Rebel Forces To Meet With Peace Committee

By The Associated Press

TAMPA Fis. Nov 28—The high command of the American Federation of Labor grappled today with the renewal of peace overtures to John L. Lowis rebet Committee for Industrial Organization. While itains carried homewark delegates who attended the A. F. of L. convention that closed last right the executive council talked privately of the form the new preposal should take.

One group of leaders contended the insergents should take, and the insergents should be extended an unamplified invitation to meet with the federations peace committee Others believed the communication ought to contain a definite basis for settlement so liberal that refused might place Lowis and his ailies on the defensive.

William Green, beginning his 18th year as president of the A. F. of L. was hopeful the new negotiations would be crowned with success. Green, the federations 18 vice presidents, and Frank Morrison, secretary-treasurer for the last 40-odd years, were resected without opposition.

TALK of a bolineed national budget for the coming your high finite though it has electrified the post electric interior few other developments could possibly

have done. Such a maximization may juin out in the end to be crity a dream. There are stubborn things when marshilled into colling to the beings. The difficulties in the way of an actual bulin e are very great. Yet there is challenging significance in the more fall that responsible officials speak of the possibilit. The apprehension and hesitation which has becomed as lowe over the business com-

mis howered so long over the business community may be traced to three principal causes

One has been the feet of inflation-a general distract of the currence. The lasterostlonal stabilization agreement has lone agreement between the constraint of the control of the

Another has been uncertainty as to fur

Another has been unectants as to fin their government regulation of business. Now the trend of affelies on that some seems definitely toward a seet reason theness. Big and little business men have wondered whether the governments undit of flying beyond its in one could be broken before it rewhed the single of a wrecked credit structure. Real assumme on that joint should contribute in arthy to the present upward swings of recovery.

How it wight Be Door

How H Might Be Done After several successive years or deficit last year saw the government spending more than two dollars for every one to collected in taxes. Koughly for the tamenths ending June 30 last the income was a little over four billions the only a little under nine billions.

Later official estimates for the vene ending meet have put recently at five and two-filed billions expenditures at seven and three quirters billions.
